Dear Minister,

Please protect Sphere, an organization that promotes the rights of women and the LGBTI community. Sphere's work on gender-related discrimination has made it a target of hate crimes, including physical violence and destruction of property. On some occasions, police have expressed support for the attackers.

As Ukraine progresses in LGBTI rights and openness, it is essential to investigate crimes against organizations like Sphere. People who commit these crimes must be held accountable in fair and open trials.

Sincerely,
